PROFESSIONAL EXPERIENCE

MAY 2018 - PRESENT

PHARMACY SPECIALIST, UNIVERSITY OF ARKANSAS FOR MEDICAL SCIENCES;
SPECIALTY PHARMACY

- Work closely and collaborate with key opinion leaders at UAMS, outside clinics, and patient management programs.
- Experience with interpreting clinical data pertaining to disease modifying therapies.
- Understanding of URAC and ACHC accreditation policies and procedures.
- Specialty prescription entry and verification including final clinical medication review prior to dispensing.
- Experience with insurance formularies, prior authorizations, and the appeal processes of specialty medications.
- Participation in pharmacy process to gain access to limited distribution medications.
- Perform comprehensive assessments and collaborate with healthcare teams to provide patient-centered medication management.
- Work within a medication management agreement with a multidisciplinary team to manage disease modifying treatments, therapy plans, supportive care medications, and laboratory orders.
- Provide disease management education to patients.
- Rotate on call to provide UAMS Specialty Pharmacy patients with 24/7 access to a pharmacy specialist.
- Optimized the workflow of the prior authorization, copay assistance, and financial assistance processes for disease modifying therapies.

GASTROENTEROLOGY CLINIC: DEC 2021 - PRESENT

- Specialty medication resource to patients, healthcare professionals, pharmacy residents, fellows, and pharmacy students on the disease modifying medications (orals and injectables) used in the treatment of inflammatory bowel disease, including crohn's disease and ulcerative colitis, and eosinophilic esophagitis.
- Cross-coverage in the treatment of patients with chronic Hepatitis C and B.

DERMATOLOGY CLINIC: APRIL 2023 – MAY 2024

- Specialty medication resource to patients, healthcare professionals, pharmacy residents, residents, fellows, and pharmacy students on the

disease modifying medications (orals and injectables) used in the treatment of psoriasis and psoriatic arthritis.

MULTIPLE SCLEROSIS CLINIC – MS PARTNER IN CARE: MAY 2018 – NOV 2021

- Specialty medication resource to patients, healthcare professionals, pharmacy residents, and pharmacy students on the disease modifying medications (orals, injectables, and infusions) used in the treatment of multiple sclerosis, neuromyelitis optica spectrum disorder and other neurological diseases.
- Assisted in the application process for the clinic to become a Center for Comprehensive MS Care by the National Multiple Sclerosis Society – designated in December 2021

AUGUST 2017 – APRIL 2018

FLOATER PHARMACIST, RITE AID PHARMACY

- Prepare prescriptions by reviewing and interpreting provider orders.
- Incorporate drug utilization reviews to ensure appropriate medication decision making and positive patient outcomes.
- Supervise the preparation of compounded medications.
- Assess the dosage and directions of prescriptions.
- Review patient medications for possible drug interactions, duplicate therapy, and therapeutic incompatibilities.
- A retrospective review of patient profiles to prevent recurrence of inappropriate use or abuse of medications.
- Counsel and advise patients on the treatment of minor ailments.
- Counsel patients on the proper administration and necessary knowledge of their medication.
- Supervise, manage, and train technicians and interns.
- Administer immunizations to patients who qualify under state and CDC guidelines.
- Educate patients on the importance of immunizations and adherence of medications.
- Familiar with working in medication therapy management programs such as Equipp, Mirixa, and Outcomes.
- Utilizing the current guidelines provided in ADA, JNC8, and ACC/AHA to provide the most beneficial course of treatment for patients.

SEPTEMBER 2017 – APRIL 2018

PRN PHARMACIST, MONROE SURGICAL HOSPITAL

- Plan and monitor patient drug schedules.
- Prepare medications by reviewing and interpreting provider orders.
- Review of prescribed medications and allergies.
- Interview patients prior to surgery for at-home medication reconciliation.
- Counsel patients about the medication administration during and after hospital stay.
- Screen patient profile to determine if drug therapy has met approved criteria.

JULY 2014 – AUGUST 2017

PHARMACY INTERN, MONROE SURGICAL HOSPITAL

- Sterile preparation of IV medications; including antibiotics, iron infusions, PCAs, pain balls/blocks, etc. while following aseptic techniques provided in USP 797 guidelines.

- Non-sterile compounding following USP 795 guidelines.
- Fill medication orders for patients.
- Maintain stock and inventory in pharmacy and medication stock rooms, including weekly controlled medication count and monthly crash cart inventory.
- Charge patient accounts based on pre-op, anesthesia, and post-op medication forms.
